AKHILESH YERI

FrontEnd Developer

✉ akhileshyeri@gmail.com ✆-9591925302 Bangalore

SUMMARY

Detail-oriented Frontend Developer with **1 year 3 months of hands-on experience**, including internships and full-time development roles. Skilled in building scalable web and mobile applications using **React.js and React Native**. Experienced **in** REST API integration, WebSocket-based real-time features**, responsive UI development with Tailwind CSS**, and modern frontend best practices. Contributed to projects such as DeliveryXing and PopKissan, focusing on performance, usability, and clean component architecture while collaborating effectively within agile teams.

PROFESSIONAL EXPERIENCE

Frontend Developer | Being Mash Service

July2025 – March 2026

Kalaburagi, India

- Developed **DeliveryXing**, a scalable delivery management web application using **React.js**, improving order tracking and operational workflow.
- Built **mobile-responsive UI components** using Tailwind CSS, ensuring smooth performance across desktop, tablet, and mobile devices.
- Integrated **RESTFULL APIs** to fetch and manage delivery data, authentication, and real-time order updates.
- Implemented **Socket connections** for real-time communication features such as live delivery status updates and notifications.
- Contributed to the **PopKissan mobile application** using **React Native**, focusing on performance optimization and seamless user experience.
- Collaborated with backend teams to ensure efficient API integration and consistent data flow between mobile and web platforms.
- Improved **user experience (UX)** by optimizing layouts, navigation flow, and responsive design patterns.
- Maintained clean, modular, and reusable components following modern **React architecture and best practices**.

Software Engineer | Minds NXT

Dec 2024 – Jun 2025

Kalaburagi, India

- Completed a 3-month internship followed by 3-months as a full-time employee, contributing to testing and front-end development projects.
- Worked on unit testing, API testing, and manual testing for 4 months, ensuring functionality, performance, and reliability of web and mobile applications.
- Contributed to the development of a healthcare-focused iOS application (“Pod Health”) for medicine tracking and reminders, designed exclusively for iOS users.
- Played a key role in migrating the mobile-based Pod Health app to a responsive web platform using React.js improving accessibility and usability for web users.
- Collaborated with cross-functional teams to implement UI components, manage state, and ensure consistent UX across mobile and web interfaces**.**

Technical skills

Front-End:

React.js, ReactNavtive, Tailwindcss, BootStarp, MUI Materails, HTML5, CSS3, JavaScript

React.js/Reactnative Expertise:

- Component-based architecture with React functional components and Hooks
- Client-side routing using React Router with dynamic routing and lazy loading
- State management using Context API, Redux Toolkit, and custom hooks
- REST API integration using Fetch API and Axios, and API testing with Postman
- Real-time communication using WebSockets / Socket.io
- Responsive UI Development using Tailwind CSS / CSS Modules

Tools& UI/UX:

Figma, Responsive Design, Git, API Integration

Certificates

- Introduction to Python – **Analytics Vidhya**
- Python Full Stack – **Infomitra Academy LLP**

Education

Sharanbasva Unviversity (2020 – 2024)
Bachelor of Technology in Electronics and Communication Engineering 8.2 CGPA

S B R PU College (2018 -2020) 67.17%
PUC Science

Sharanbasva Residential Public School (2018) 74.40%
SSLC
